The new **P&L SPECIALTIES CONSISTA-FLOW™** Whole Cluster

Destemmer Feed Conveyor delivers a HUGE improvement in grape processing quality. It was designed from scratch to eliminate the smashed grapes, undestemmed clusters, excessive jack and stem piece production, caused by over feeding and uneven feeding of the destemmer. Every aspect of the **CONSISTA-FLOW™** delivers top performance, from the style and type of belt used to the easy to sanitize design. This unit is perfectly suited for the ultra premium producer who processes @ 5 tons per hour and under. Every element of this conveyor design was developed and field tested, with guidance from winemakers and operators.

THE CONSISTA-FLOW™ reflects the finest craftsmanship and state-of-the-art design available. In short, **P&L SPECIALTIES CONSISTA-FLOW™** performs flawlessly. It is fine American craftsmanship, and an outstanding value.

STANDARD FEATURES:

- True sealed sump for juice management and complete product conveyance.
- Adjustable discharge height range from 64"-96".
- Food-grade externally-driven motor pulley for superior speed control range.
- Special ozone and UV resistant premium food-grade belting material for added longevity and cleanliness.
